Cool, yes we are.

BLUSoda

The Blupura water cooler representing state of the art in compact dimensions: great design and carbonated water using Dry Cooling Technology...

Compact, powerful and built entirely in stainless steel, BluSoda is the smallest of the Blupura chillers: perfect for home and office and of course maintaining the professional performance expected from all our watercoolers. Supply options: cold still water, room temperature water, sparkling water and hot water at 95°C (Hot version). Now BluSoda PLUS comes with the semi-sparkling water option! Plus its unique led lights indicate power on and sparkling water availability.

Optional extras:

- UV Out
- Activated carbon filtration - UV in line.
- Drip tray with drain.
- Cabinet.

High quality stainless steel buttons

The new Hot version

8 litres of hot water, both in the undercounter and countertop versions. The first watercooler for office use which also provides hot water at the perfect temperature (95 °C) for a good cup of tea.

Natural refrigerant gases

With totally natural refrigerants (HC) such as R290. An ecological choice, with the added advantage of a more silent compressor and ensuring a longer life to the entire refrigerant apparatus.
